I understand that the Academy reserve the right to postpone or reset a course date based on minimum student requirements. Students will work on each other on rotation and may be asked to bring a person or model on certain days.

We aim to provide top quality tuition, easy to follow demos and fantastic course content. Therefore a great start to working as a freelance makeup artist in the industry. We ask that students arrive with time to spare each day and to unpack. Students are asked to bring their clean brushes and any products that were given to them on the course every day. All products provided for training are of a high quality and the studio is a fully kitted photographic studio so we ask that students treat them and the Academy with respect. Artists will be shown the correct hygiene practices and asked to follow this going forward. No cattiness, bullying or teasing of ANY kind will be tolerated as we provide a safe learning environment for students to thrive and grow as budding makeup artists. Students need to attend 90% of their lessons to ensure that they pass. Should they require a "make up session" this will be charged for. Should the lecturer fall ill or in an emergency situation every effort will be made to provide a lecturer of equal caliber and experience to take over so that students don't miss out on anything. We reserve the right to replace items in the kits or those given on courses with items of an equal value for those out of stock or stuck in customs. We look forward to providing a positive, fun learning atmosphere for all ages. Where prospective makeup artists can express themselves, ask questions and start their journey to becoming makeup artists.
